

RESOLUTION

GRANTING AN EXCEPTION ON JCC RE TAX PARCEL 4711900017

WHEREAS, Larry Walk, Walk Wright Construction LLC, on behalf of Keith and Gretchen Hopkins (the "Applicant") has applied to the Chesapeake Bay Board of James City County (the "Board") to request an exception to the use of the Resource Protection Area (the "RPA") on a parcel of property identified as JCC RE Tax Parcel 4711900017 and further identified as 332 Mill Stream Way in the Settlers Mill at Jamestown subdivision (the "Property") as set forth in the application CBE-16-029 for the purpose of constructing a single family dwelling and retaining walls; and

WHEREAS, the Board has listened to the arguments presented and has carefully considered all evidence entered into the record.

NOW, THEREFORE, following a public hearing on October 14, 2015, the Chesapeake Bay Board of James City County by a majority vote of its members FINDS that:

1. The exception request is the minimum necessary to afford relief.
2. Granting the exception will not confer upon the Applicant any special privileges denied by Chapter 23, Chesapeake Bay Preservation, of the James City County Code, to other property owners similarly situated in the vicinity.
3. The exception request will be in harmony with the purpose and intent of Chapter 23 of the James City County Code, and is not of substantial detriment to water quality.
4. The exception request is not based on conditions or circumstances that are self-created or self-imposed, nor does the request arise from conditions or circumstances either permitted or non-conforming that are related to adjacent parcels.
5. Reasonable and appropriate conditions are hereby imposed, as set forth below, which will prevent the exception request from causing a degradation of water quality.
6. In granting this exception, the following conditions are hereby imposed to prevent this exception request from causing degradation of water quality:
 - 1) The Applicant must obtain all other necessary federal, state, and local permits as required for the project.
 - 2) A \$3,000 surety will be required in a form acceptable to the County Attorney's office.
 - 3) Design and construction of the on-lot runoff reduction/pollutant removal practices as proposed (infiltration facility/pervious concrete on west side driveway behind the setback line) shall generally follow micro-scale specifications found in Virginia DEQ Stormwater Design Specification No. 8 (Infiltration); or alternatively, an equivalent and acceptable published and agreed upon standard for on-lot residential practices. Final design/construction information for the practices shall be submitted to the Engineering and Resource Protection Division for review and approval prior to installation.

- 4) This exception request approval shall become null and void if construction has not begun by October 14, 2016.
- 5) Written requests for an extension to an exception shall be submitted to the Engineering and Resource Protection Division no later than 6 weeks prior to the expiration date.

Michael Woolson
Senior Watershed Planner

David Gussman
Chair, Chesapeake Bay Board

Adopted by the Chesapeake Bay Board of James City County, Virginia, this 14th day of October 2015.
