WHEREAS, Stonehouse Capital, LLC will, in the very near future, construct a waterline in Fieldstone Parkway that will connect the Stonehouse Development to the Central Water System; and

WHEREAS, planned growth in the Stonehouse Development will necessitate the addition of water storage in the development in the near future and the Stonehouse Master Water Plan provides for a 500,000-gallon capacity groundwater storage facility as the next water storage component of the development at an estimated costs of \$400,000; and

WHEREAS, the James City Service Authority Staff and representatives of Stonehouse Capital, LLC have agreed that diversion of the costs to build the planned ground level storage tank to the larger elevated tank would be of mutual benefit; and
