F. NEW BUSINESS

1. Presented Draft Fiscal Year 2027 Budget

A motion to approve Fiscal Year 2027 Budget (FY27 Budget) was made by Lynn Meredith; motion Passed.

AYES: 5 NAYS: 0 ABSTAIN: 0 ABSENT: 2

Ayes: Campana, Mulvain, Turner, Nice, Meredith

Absent: Gajda, Stanko

Mr. Johnson stated that (LGIP) interest had been estimated using \$8,000 as a conservative monthly figure based on interest income received in the EDA LGIP account in recent months. He reported that projected revenue also included a full year of Billsburg Brewery rent at \$5,833 per month, Renwood Farm income from Mainland Farm rental income of \$14,725 annually, and \$67,700 in bond administration fees from Christopher Newport University and Virginia United Methodist Homes, Inc. (WindsorMeade Williamsburg).

Mr. Johnson presented the proposed FY27 budget expenses, noting that the expense estimates had been carried forward from the previous year. He stated that the promotion and business assistance accounts accounted for most of the expenses and that details outlining allowable uses of funds within those accounts were included in the draft budget for each line item. Mr. Johnson stated that the \$7,000 placeholder in Community Association dues had previously been allocated for the James River Commerce Center association dues when the EDA owned property in the Commerce Center. He further stated that Stonehouse Commerce Park property association dues were estimated to be similar and noted that James City County (JCC) had been paying those dues for the Navien expansion property since the land was acquired. Mr. Johnson stated that such dues could become the responsibility of the EDA in the future.

Mr. Turner requested that, in the future, given that the business assistance account was one of the larger expense categories, a schedule of anticipated expenditures and associated costs be provided to better understand the potential impact on the proposed EDA budget.

Mr. Johnson stated that any expenses from the business assistance account were required to be brought before the EDA for a vote. He further stated that details regarding allowable uses of funds in the business assistance and promotion accounts reflected expense items from the previous year. He added that any unused funds from those accounts could be carried forward and deposited into the LGIP investment account for future use.

Ms. Meredith asked what the EDA's variance had been from the FY25 Budget.

Mr. Wiggins stated that the EDA's revenues had significantly exceeded expenditures.

Ms. Meredith asked for FY25's total revenue.

Mr. Wiggins stated both the adopted and actual revenue for FY25. The total revenue for FY25 was \$275,670.

Ms. Meredith asked whether the EDA needed to budget for land improvements.

Mr. Johnson stated that the EDA did not have funds budgeted for property improvements because it did not own any properties at that time. He explained that the Office of Economic Development had allocated funds within its departmental budget to conduct engineering studies on specific properties in James City County in anticipation of those properties being brought to market upon completion of the studies, citing the Stonehouse property as an example. Mr. Johnson further stated that funds had been included in the Capital Improvement Program for three to four years for four specific properties. He reported that two properties owned by James City County had since been sold and that two privately owned properties had advanced in development. He noted that one of those properties had become part of the Lovett 64 Commerce Center, which remained in private ownership and was under development.
